Molecular and Biochemical Parasitology, June 1996, Volume 78, Number 1,2, pp. 1 – 302

CONTENTS

Cited In: Abstracts in Hygiene and Communicable Diseases – Biological Abstracts – Chemical Abstracts – Current Contents/Life Sciences – Excerpta Medica – Helminthological Abstracts – Index Medicus – Protozoological Abstracts – Tropical Diseases Bulletin – PASCAL M and S – Reference Update – Current Awareness in Biological Sciences (CABS)

Regular papers

Analysis of a cation-transporting ATPase of *Plasmodium falciparum*
M. Dyer, M. Jackson, C. McWhinney, G. Zhao, R. Mikkelsen (UK, USA) 1

Developmental expression of a 43-kDa secreted glycoprotein from *Trichinella spiralis*
D.K. Vassilatis, R.I. Polvere, D.D. Despommier, A.M. Gold, L.H.T. Van der Ploeg (USA) 13

***Trichinella pseudospiralis secretes* a protein related to the *Trichinella spiralis* 43-kDa glycoprotein**
D.K. Vassilatis, D.D. Despommier, R.I. Polvere, A.M. Gold, L.H.T. Van der Ploeg (USA) 25

Purification and characterization of proteasomes from *Trypanosoma brucei*
S.-b. Hua, W.-H. To, T.T. Nguyen, M.-L. Wong, C.C. Wang (USA) 33

A homologue of the cysteine proteinase gene (*ACP_1* or *$EH\text{-}CPp_3$*) of pathogenic *Entamoeba histolytica* is present in non-pathogenic *E. dispar* strains
D. Mirelman, Y. Nuchamowitz, B. Böhm-Gloning, B. Walderich (Israel, Germany) 47

Identification and cloning of a locus of serine repeat antigen (sera)-related genes from *Plasmodium vivax*
M.C. Kiefer, K.A. Crawford, L.J. Boley, K.E. Landsberg, H.L. Gibson, D.C. Kaslow, P.J. Barr (USA) 55

Stage-specific expression of a *Plasmodium falciparum* protein related to the eukaryotic mitogen-activated protein kinases
D.T. Lin, N.D. Goldman, C. Syin (USA) 67

Identification and overexpression of the A2 amastigote-specific protein in *Leishmania donovani*
W.-W. Zhang, H. Charest, E. Ghedin, G. Matlashewski (Canada) 79

Upstream regulatory elements controlling expression of the *Entamoeba histolytica* lectin
J.E. Purdy, L.T. Pho, B.J. Mann, W.A. Petri Jr (USA) 91

Identification and composition of lipid classes in surface and somatic preparations of adult *Brugia malayi*
V.P. Smith, M.E. Selkirk, K. Gounaris (UK) 105

The contribution of the arginine dihydrolase pathway to energy metabolism by *Trichomonas vaginalis*
N. Yarlett, M.P. Martinez, M.A. Moharrami, J. Tachezy (USA, Czech Republic) 117

Mucin-like glycoprotein genes are closely linked to members of the trans-sialidase super-family at multiple sites in the *Trypanosoma cruzi* genome
N.A. Salazar, A. Mondragon, J.M. Kelly (UK) 127

Compartmentalization of genes coding for immunodominant antigens to fragile chromosome ends leads to dispersed subtelomeric gene families and rapid gene evolution in *Plasmodium falciparum*
R. Hernandez-Rivas, K. Hinterberg, A. Scherf (France) 137

Expression of recombinant microfilarial chitinase and analysis of domain function
A. Venegas, J.C. Goldstein, K. Beauregard, A. Oles, N. Abdulhayoglu, J.A. Fuhrman (USA) 149

Stage-specific processing of Pfs230, a *Plasmodium falciparum* transmission-blocking vaccine candidate
K.C. Williamson, H. Fujioka, M. Aikawa, D.C. Kaslow (USA) 161

Regulation of Ca^{2+}/calmodulin-dependent protein kinase from *Trypanosoma cruzi*
S. Ogueta, G.M. Intosh, M.T. Téllez-Iñon (Argentina) 171

Cloning, expression and characterization of an unusual guanine phosphoribosyltransferase from *Giardia lamblia*
J.M. Sommer, H. Ma, C.C. Wang (USA) 185

The requirements for G_1 checkpoint progression of *Trypanosoma brucei* S 427 clone 1
G.A. Morgan, E.A. Hamilton, S.J. Black (USA) 195

Identification of a domain of *Trypanosoma cruzi* metacyclic trypomastigote surface molecule gp82 required for attachment and invasion of mammalian cells
F.R. Santori, M.L. Dorta, L. Juliano, M.A. Juliano, J. Franco da Silveira, R.C. Ruiz, N. Yoshida (Brazil) 209

(Contents continued on page 302)

05066

(Contents continued from back cover)

The calmodulin-ubiquitin (*CUB*) genes of *trypanosoma cruzi* are essential for parasite viability
J. Ajioka, J. Swindle (USA) 217
Procyclic *Trypanosoma brucei* cells lines deficient in ornithine decarboxylase activity
F. Li, S.-b. Hua, C.C. Wang, K.M. Gottesdiener (USA) 227
Molecular characterization of the glutathione peroxidase gene of the human malaria parasite *Plasmodium falciparum*
B. Gamain, G. Langsley, M.N. Fourmaux, J.P. Touzel, D. Camus, D. Dive, C. Slomianny (France) 237
Isolation, characterization and expression of the gene encoding cytidine triphosphate synthetase from *Giardia intestinalis*
R.L.H. Lim, W.J. O'Sullivan, T.S. Stewart (Australia) 249

Short communications
Developmental expression of heat shock protein 90 in *Eimeria bovis*
T.G. Clark, M.S. Abrahamsen, M.W. White (USA) 259
Cloning and sequencing of the gene encoding the principal 18-kDa secreted antigen of activated oncospheres of *Taenia saginata*
L. Benitez, T. Garate, L.J.S. Harrison, P. Kirkham, S.M. Brookes, R.M.E. Parkhouse (Spain, UK) 265
Genetic polymorphism of the Duffy receptor binding domain of *Plasmodium vivax* in Colombian wild isolates
E. Ampudia, M.A. Patarroyo, M.E. Patarroyo, L.A. Murillo (Colombia) 269
Cloning and characterization of the *Entamoeba histolytica* pyruvate: ferredoxin oxidoreductase gene
M.A. Rodríguez, M.E. Hidalgo, T. Sánchez, E. Orozco (Mexico) 273
Sequence analysis of the apical membrane antigen-1 genes (*ama-1*) of *Plasmodium yoelii yoelii* and *Plasmodium berghei*
S.H.I. Kappe, J.H. Adams (USA) 279
Trypanosoma brucei* with an active metacyclic variant surface gene expression site expresses a transferrin receptor derived from *esag6* and *esag7
D. Steverding, P. Overath (Germany) 285
Tubulin genes from AIDS-associated microsporidia and implications for phylogeny and benzimidazole sensitivity
J. Li, S.K. Katiyar, A. Hamelin, G.S. Visvesvara, T.D. Edlind (USA) 289
Molecular characterization of a *Plasmodium falciparum* gene encoding the mitochondrial phosphate carrier
S. Bhaduri-McIntosh, A.B. Vaidya (USA) 297
